World Famous Thinker.

Henry George is a brain-made man. To is own good head he owes the world-wide elebrity he enjoys as a thinker. No man be less indebted for fame to exvorked hard and humbly with his any nid from schools and con-the respectful attention of serious of his intellectual ability.

Henry George is proof that genius mean

SCHOOLBOY AND SAILOR.

HENRY GEORGE, A BRAIN-MADE MAN.

By Arthur McEwen.

FIVE ACES "--- HENRY GEORGE FROM FOUR TO FIFTY-EIGHT.

Descriptions of the Pictures Written by Mrs. Henry George.

(1.) "My husband as he appeared at the age to four head and heavy masses of hair. Soon after this he was in- married. He was a handsome, self-reliant young man, very structed in a child's school, a sort of kindergarten."

(5.) "My husband at the age of twenty-one years. The years. He was a quiet, thoughtful child, with a fine, large picture was taken i San Francisco just before we were

structed in a chief's school, a sort of kindergarten.

(2.) "This picture shows my hasband at the age of figer, about the time he was graduated from the High School at the head of his class and went to sea with a captain who was a friend of his father and who was much opposed to his being a sallor. Henry had inherited a passion for the sea being a sallor. Henry had inherited a passion for the sea from his grandfather, who was captain of a ship and made for the mast."

(3.) "This picture shows my hasband at the age of fighteen, about the time he was graduated from the High School at the head of his class and went to sea with a captain who was much opposed to his being a sallor. Henry had inherited a passion for the sea from his grandfather, who was captain of a ship and made for the mast."

(3.) "This picture shows my hasband at the age of fighteen, a captain who was much opposed to his temperament and always manly and tender. His uncle, with whom he had a misunderstanding which revers the of the city from the rade village row the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time, I was very much affected by the first time I was growth of the city from the reder that grade and who was much opposed to his sharp affected by the first time, I was safely by the first time, I was safely to the city from the reder when the first time I was affected by the first time, I was safely to the city from the reder that time, I was growth of the city from the reder that time, I was affected by the same t

The same of the control of the same of the control Sacramento. Then be became a partner in a job office. A dry season came; beggars appeared in California for the first time. Flour went up to \$16 a harrel. "We were very hard up, but finally got some 5ob printing to do for a man who paid us in corn meal and potatoes. The milkman took his pay in billheads. My family jived on 50 cents a day, and we never ran in debt." Meantime the cliest son, Harry, and the second son, Richard, now the sculptor, had been born.

GOING TO FIGHT MAXIMILIAN. "The life and death struggle of the American Republic gave Napoleon III. an opportunity to send an army into Mexico for the establishment of Maximilian on a throne in that country. The struggle of the Maxima struggle of Maxima struggle of the Maxima struggle of Maxima struggle of the Maxima struggle of Maxima struggle of the Maxima struggle of the Maxima struggle of Maxima struggle of the Maxima struggl

country, getting subscriptions for the Weekly Journal, and I also took along a lot of clothes wringers to peidle. Shortly after I returned to San Francisco the paper died.

"Work getting short again, I returned to San Francisco the paper died.

"Work getting short again, I returned to San Francisco the paper and to Sacramento to work on a contract for State printing. We received \$5 a day. When the Legislature adjourned there was no work to do. and having saved up a little money I invested in some copper mines located near Batte. But they soon fixled out. I went to the Sacramento Union again as a sub. Returning to San Francisco I habded the manager of the Times an editoral article on the completion of the laying of the Bussian telegraph. It was printed immediately, and gave great satisfaction. They offered me a place as newly adjust, the reason of it all came upon me like a revelation. I had the class of interesting things, editorially, question, and was rapidly becoming disgusted with the Republican party. I left the class of the sacramento Union again as a sub. Returning to San Francisco Herald, and came by pony experience."

He was asked to go East to secure the management of the Chronicle, and all lift and was worth there. He pointed immediately, and gave great sacciated Press disputches for the San Sacciated Press disputches for the San Francisco Herald, and came by pony expense accompanies industrial profess. While editing a paper in Oak lat all came upon me like a revelation. I had darken a horse and gone for a ride, and hadn't thought of revenue then and I hadn't thought of the land question.

Had to the Chronicle and left it all the Chronicle, then into the bills and in the paper in Oak lat all came upon me like a revelation. I had taken a horse and gone for a ride, and having search the converse of the san with the Repub

came close to starvation. I had no shoes to Mexico, and ardentity desirous to stylks to Wear and scheely any clothing. So it was to subbing on the other papers."

MARRIED ON LESS THAN NOTHING
"I was then acquainted with the girl I married. She was a California girl of Australian birth, an orphan and a pretty strong Catholic, while I was an Episcopalian. I
